STATUTORY STANDARDS FOR THE ISSUANCE OF USE AND AREA VARIANCES

Section 267-B of General Town Law permits the local Zoning Board of Appeals to grant waivers (variances) from the strict application of the Zoning Ordinance provisions. However, this relief, by law, can only be given under hardship or practical difficulty situations. The following information outlines the tests that must be met before the applicant would be eligible for a variance. Supporting documentation must be included in the application submission.

IF A USE VARIANCE IS REQUESTED:

The applicant must demonstrate to the ZBA for each and every permitted use under the Zoning Ordinance for the particular zone where the parcel is located that:

- a. The applicant cannot realize a reasonable return, provided that this lack of return is substantial, demonstrated by competent financial evidence (such as appraisal, financial statements, tax bills, expert testimony, etc.).
- b. The alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood.
- c. The requested use variance, if granted, will not alter the essential character of the neighborhood.
- d. The alleged hardship has not been self-created.

IF AN AREA VARIANCE IS REQUESTED:

The applicant must demonstrate:

- a. Why the request will not result in an undesirable change to the character of the neighborhood, or be a detriment to nearby properties.
- b. Why the benefit sought cannot be achieved by some other method feasible to the applicant.
- c. Why the variance is not deemed substantial in nature.
- d. Why the request will not have an adverse effect or impact on the physical or environmental conditions of the neighborhood or district.
- e. Why the alleged difficulty was not self-created.

DOCUMENTATION MUST BE SUBMITTED IN WRITING WITH YOUR SUBMISSION, EXCEPT FOR EXPERT TESTIMONY.
